West Nile Virus Prevention Tips

Pic of West Nile Prevention Tips

The Massachusetts Department of Public Health (MDPH) confirmed that West Nile Virus (WNV) has been detected in a mosquito sample collected on August 1 in Southborough. The risk of WNV in Southborough remains low at this time, but it is important to take precautions to prevent mosquito bites and mosquito-borne diseases.

Hearty congrats to Facilities Director John Parent for spearheading a grant application that will provide the Town/School with \$13,434 for LED lighting at the Trottier School & \$12,961 for weatherization at the Flagg School Building. We're very grateful to the Department of Energy Resources (DOER) Green Communities Division

Au Revoir, Josie!

If you've had the pleasure of doing business in the Town Clerk's Office this Summer, you've likely had a chance to interact with the delightful Josie Berry. She is headed back to her junior year at Sacred Heart University and we'll miss her so much. She is absolutely sunshine in a cup! Good luck, Josie and we hope to see you back here soon.

We want to hear from you!

In May 2025, Southborough voters considered a proposal for a new Neary School building, but it did not pass. Now, the reconstituted Pre K-8 School Building Committee is asking for your feedback.

This short, anonymous survey will guide the new committee. If you do not have a home computer, there is one set up at the Senior Center that you can use to complete the survey.
